

IONIC CLEANSE FOOTBATH TREATMENT

Individual sessions \$50.00

Package 1: Buy 6 sessions and get the 7th session Free

Package 2: Buy 12 sessions and get 2 sessions Free

Relax with your feet in water for about 30 minutes while the IonCleanse footbath purifies the body through the electrolysis of the water. The IonCleanse creates precisely the same environment as a walk along the beach, only more powerfully because your feet are in direct contact with the ions being manufactured in the water. Place your feet in the water, turn on the unit and within seconds, millions of ions enter your body and begin to neutralize these tissue acid wastes.

Rashes, dark circles under the eyes, swollen joints, yellow-green and blotched complexions often indicate a buildup of tissue acid wastes inside the body. Several IonCleanse sessions along with dietary modifications may substantially reduce and even eliminate these conditions.

Fat and mucous residues found in the water after bathing reflect the wastes that have left the body during the 20 to 30 minute session.

According to Dr. Theodore Baroody, author of *Alkalize or Die*, acid wastes attack joints, tissues, muscles, organs and gland causing minor to major dysfunction. He asserts that avoiding disease and maintaining vitality as we age requires the maintenance of an alkaline environment throughout the body. This is virtually impossible to accomplish in our high-tech, high-stress, toxic society unless we can walk on the beach everyday.

How the IonCleanse Works

A water molecule is composed of two hydrogen atoms and one oxygen atom. When the molecule loses a hydrogen atom, the remaining OH molecule takes on a negative charge. As you walk along the beach, your body absorb millions of these negatively charges ions, which alkalize the blood and tissue. Because of poor diet and high stress, we tend to accumulate and store excessive quantities of waste products such as diacetic, lactic, pyruvic, uric, carbonic, acetic, butyric and heptic acids.

Testimonials

"My once swollen ankles are now normal size after six treatments. They tend to retain fluid when I am under stress, but one or two treatments brings them back to normal size." Ellen Zimmer, Spring Valley, Wisconsin.

"The liver spots that used to be all over the back of my hands and arms are almost completely gone." Louise Webb, Durango, CO

"My 85-year-old mother could not work in the garden because of severe pain and stiffness. She can now work a few hours every day and fights me for the IonCleanse." Gordon Pierce, Littleton, Colorado
